About Our Junior Program

Golf is a fun game to be played throughout your life. To help you more easily learn the key fundamentals of the game, we have developed an easy-to-use learning program. The program consists of three levels, numbered 1 to 3.

The skill level increases as you advance through each level and your coach will guide you along the way. At each level, you will learn specific terms and skills to help you improve in the game.

Each child will be given a booklet about their level to show examples of these forms and provide information to help you master them. Each level includes instruction and checkpoints in five core areas.

To provide incentive to advance through the levels, you will earn an achievement pin each time you complete one of the checkpoints. Upon completion of each level you will earn a Mastered Pin. The achievement pins can be displayed on your Learning Scorecard.
